

ODOUR CONTROL

Benefits & Area of Applications

Ecomaster Odour Control Solution is an advanced, eco-friendly formulation designed to effectively neutralize a wide range of malodorous compounds. This natural, enzyme-based solution targets hydrogen sulfide, ammonia, amines, mercaptans, skatole, sulfur dioxide, acetaldehyde, cadaverine and other foul-smelling gases commonly generated in various industries. From food processing plants to waste management facilities, this biodegradable product is suitable for a multitude of environments, both indoor and outdoor. It provides a powerful solution for eliminating offensive odors in locations like effluent and sewage treatment works, retail spaces, industrial plants, and landfill sites.

Benefits of Ecomaster ODOUR CONTROL

- Neutralizes various odors
- Eco-friendly and biodegradable
- Non-toxic and safe for use
- Highly effective in industrial environments
- Suitable for both indoor and outdoor applications

Area of Application

- Wastewater Treatment Facilities
- Production Processes
- Petrochemical Industry
- Food and Meat Processing Industry
- Composting Sites
- Municipal Landfills
- Public Restrooms

Physical Properties

- Powder Form
- Off White Colour
- 2 Years of Shelf Life

Packaging

- 1 Kg and 25 Kg Bag
