

 **ecoMaster**<sup>®</sup>

# N AND P BOOSTER

## Benefits & Area of Applications

Ecomaster N & P Booster is an eco-friendly, specially formulated blend of essential nutrients designed to support the development of biomass in wastewater treatment. This advanced formula contains a variety of macro, micro and secondary nutrients, as well as amino acids, vitamins, proteins, carbohydrates, and minerals. These naturally occurring elements are highly effective in replacing conventional additives used in wastewater management. Ecomaster N & P Booster provides the necessary strength for microbes to grow, thrive, and sustain themselves in harsh wastewater conditions, ensuring improved efficiency in the treatment process.

### Benefits of Ecomaster N & P Booster

- Enhances nitrogen and phosphorus levels in the biological tank.
- Improves sludge settling efficiency.
- Accelerates MLSS development.
- Boosts BOD and COD reduction by promoting bacterial health.
- Reduces sludge hydrolysis.

### Area of Application

- Membrane Bioreactor (MBR)
- Activated Sludge Process (ASP)
- Sequencing Batch Reactor (SBR)
- Moving Bed Biofilm Reactor (MBBR)
- Extended Aeration System
- UASB, Anaerobic Digesters, Anaerobic Lagoons
- Water Bodies (Ponds, Lakes, Drains)

### Physical Properties

- Powder Form
- Off White Colour
- 2 Years of Shelf Life

### Packaging

- 1 Kg and 25 Kg Bag
