

ecoMaster[®] SOIL RESTORE

Benefits & Area of Applications

Ecomaster Water and Soil Restore is specifically formulated to tackle these pressing issues in aquaculture. This innovative product combines a unique blend of carefully selected natural and safe microbial strains, designed to enhance the breakdown of sludge and restore the quality of both bottom soil and water. By facilitating more efficient digestion of organic waste, Ecomaster Water and Soil Restore helps lower the levels of toxic compounds while increasing the concentration of dissolved oxygen in the water.

Benefits of Ecomaster Water and Soil Restore

- Breaks down leftover feed, excreta, and dead plankton.
- Prevents the formation of black soil.
- Eliminates unpleasant odors from ponds.
- Reduces water turbidity.
- Lowers ammonia levels.
- Removes sludge buildup

Area of Application

- Aquaculture
- Pond Management
- Water Quality Improvement
- Environmental Remediation
- Waste Management

Physical Properties

- Powder Form
- Off White Colour
- 2 Years of Shelf Life

Packaging

- 1 Kg and 25 Kg Bag
